

Build Your Tomorrow. Today!

Young Engineers offers unique STEM programs where children have fun while learning critical skills for the digital age. We aim to ignite a student's passion for science, technology, engineering and math (STEM) by building Lego® prototypes and Lego® robots.

Young Engineers Illawarra

young.engineers_illawarra

About The Lessons – students learn physics, mathematics, mechanical & software engineering by watching engaging demonstrations and by building Lego prototypes of real-world machines. Problem solving, critical thinking and collaboration are key elements of the program.

About How We Teach - some classes operate in a multi-age environment. In all cases, we optimize our delivery according to ability and interest. Lessons and activities are different for each term.
